BINGLEY

# BINGLEY

The cabinet can be arranged in two positions.

**Bingley** is a new executive furniture series composed of the elements that create representative and functional workplaces. The structure pattern is available in two finishes - light and dark sycamore. Combined with white and black elements, it perfectly emphasizes on prestige and elegance as well as individualism. **Bingley** looks supremely in small and large rooms. According to the individual taste, the desk can be supplied with a side cupboard. This managerial furniture set ensures that all necessary things are easily accessible.

Electric height adjustable **Bingley** desk has a height regulation ranging from 760 mm to 1300 mm creating both sitting and standing options. Additionally it is equipped with the ISP - Intelligent System Protection - which is an anti-collision system forcing the desk to stop when an obstacle is encountered.

**3D** synchronous  
texture  
technology

For the first time, the technology of synchronous 3D structure was used in the production of plates for **Bingley**. In order to make it more authentic, both the wood pattern and the surface texture were reproduced with greater accuracy and precision.

Modern interiors make a perfect background for the minimalist form of **Bingley** furniture. Simple geometric shapes and a limited but carefully selected number of pieces of furniture allows to create the result of austere and tasteful elegance.

**3D** synchronous  
texture  
technology

# 3D synchronous texture technology

The wood-like texture can be both seen and felt by touch. The effect of noble matt veneer is highlighted by the glossy pores on the melamine surface. The choice of this decor was inspired by the very natural colour of sycamore.
