Ekra 1 TECHNICAL FEATURES

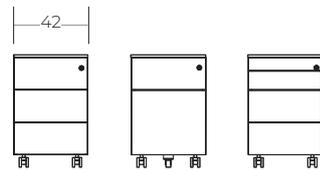

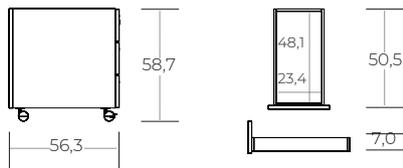

• Pro pedestals:

Made from 18 mm thick particle board with melamine finish (weight 620 kg. Per cum. Class e1 with low formaldehyde emission, reaction to fire) with 1 mm-thick edges, rounded with 2 mm radius. The lock is cylindrical with a flat exterior and of the Yale type with a folding key grip. The drawers close simultaneously sly thanks to a vertical metal rod with preset notches. Anti-tilt system, only available as standard equipment for metal drawers. The internal black metal drawers have metal runners fitted with a corrosion resistant roller mechanism equipped with soft closing type and are made of a formed metal sheet that is 8/10 thick and epoxy varnished. The filing cabinets have a fifth wheel for greater stability and metal roller runners for the pullout rack that are full-extension. The sheet iron frame allows you to hang 33 and 39 cm foolscap files. The internal black melamine drawers are 3 sided, jointed directly onto the melamine front. The drawers are fitted with metal, easily extractable guides sliding on self-lubricating roller wheels equipped with soft closing type. The pedestals have 4 black, 5cm diameter (2 with brake), ABS metal castors. The support pedestals, on the other hand, stand on, 4 black-colored ABS levelers feet d.52x18mm. It is possible to add accessories, on request, such as horizontal file dividers in the holes along the sides. Soft-system system included.

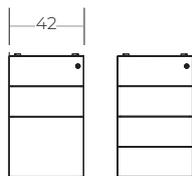

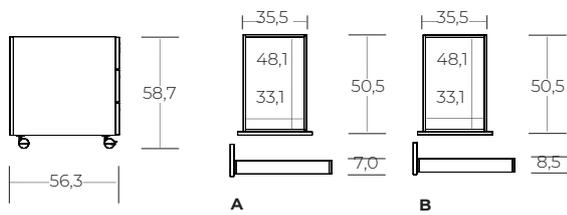

Ekra 1 CONSTRUCTION FEATURES

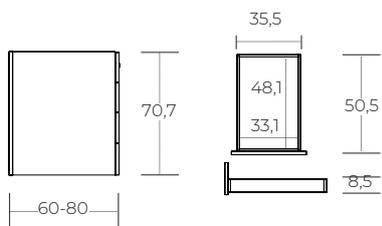

- Internal black laminate drawers

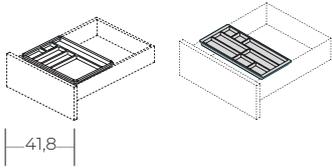

- A: internal black laminate drawers
- B: internal black metal drawers

- Internal black metal drawers

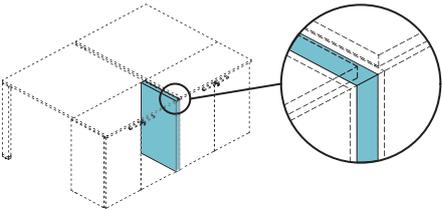

Ekra 1 ACCESSORIES

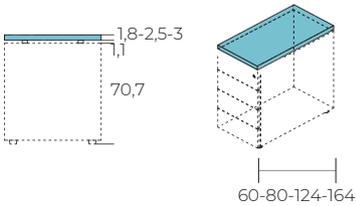

Stationery tray

Horizontal separator for metal drawer
